

YOU IMAGINE IT. WE MATERIALIZE IT.

**AVONITE**  
SURFACES  
A Brand of Aristech Surfaces LLC

# Beauty & Durability – Form & Function.

Avonite® Surfaces by Aristech Surfaces® LLC provides a full line of elegant, high-quality surfaces that are pleasant to the eye and to the touch, all while being extremely versatile.

By combining the properties of solid surface with a unique, singular manufacturing process, it merges beauty and durability with form and function.

Avonite Surfaces Solid Surface is widely preferred for applications requiring a high degree of hygiene and aesthetic beauty, including healthcare, education, retail, hospitality, bars & restaurants, transportation, public and living spaces, and government and institutions.

By choosing Avonite Surfaces, you open the door to infinite options by combining two product lines that offer a wide range of patterns, colors and levels of translucency: Avonite® Acrylic Solid Surface and The Studio Collection®.

## Avonite® Solid Surface Key Advantages

- Homogeneous, color saturated, and can be fabricated to an elegant silky, matte or glossy surface finish.
- Allows for seamless transitions between sheets, opening up new opportunities for uninterrupted large dimension surfacing.
- Non-porous: extremely hygienic and easy to clean.
- Can repeatedly be repaired and restored for extended life.
- Highly functional, durable, and meets highest standards of hygiene.
- Available in almost any colors of the spectrum and in a multitude of patterns and designs.
- Recycled content colors for Eco-conscious designs.
- Can be heated and formed into many shapes, making it the ideal material for interior designers and architects to create fabricated solutions for a broad variety applications.
- A broad palette of tonal colors and designs for the creation of harmonious spaces.
- 10-year limited product warranty.

BEND IT. SHAPE IT. ANYWAY YOU WANT IT.

## Avonite® Acrylic Solid Surface.

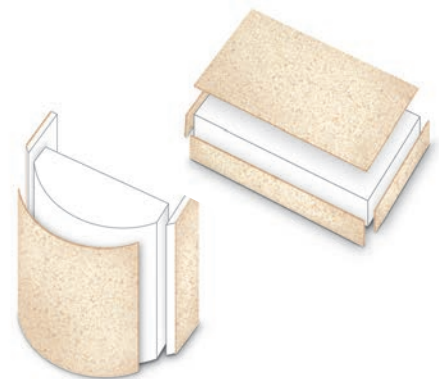

Composed of a dynamic portfolio in a variety of designs and colors, Avonite Acrylic Solid Surface has something for every project. It can be used in vertical or horizontal applications, can be applied in straight or curved lines, and can be thermoformed into a myriad of shapes. Through our Right Size program, it can be made in wider widths, longer (or shorter) lengths, and different thicknesses, allowing you to push the boundaries of solid surface tradition.

## ADVANC3™ - The Next Generation of Solid Surface.

### A specialized solid surface product

- Provides great looks and performance with less weight. With our Right Size program, ADVANC3 can be sized to most efficiently meet the needs of most projects.
- Provides significant cost savings over the traditional 1/2" and even 1/4" solid surface material while delivering the same surface benefits in applicable installations.
- ADVANC3 is a great substitute for High-Pressure Laminate (HPL) where there is a need and desire for a hygienic and aesthetic surface with no seams.
- Typical applications include retail fixtures, furniture, and nurses stations.

# Be Bold. Be Unique. Be Unforgettable. Make Your Statement.

This eye-catching collection is unmatched in depth, clarity, and color-fueled design options. Add brilliance and create dramatic mood settings using the Glass, Petals and Frosted Glass Series for dramatic back lighting with several levels of translucency. Use the Metallic Series to evoke earth, water and precious metals for a nod to nature with a bit of shimmer, inviting the use of lighting as an added dimension.

Popular applications for Studio include but are not limited to:

- Counter tops
- Furniture
- Cash Wraps
- Back lit Bar Tops
- Store Fixtures
- Partitions / Wall Art

## The Chromatix™ Program. Clearly Colorful.

Now you can get our Studio Collection Glass, Petals or Frosted Glass series in your choice of colors, as well as degree of translucency. There are no boundaries when it comes to the endless combinations of color and light that can make your design breathtaking and memorable.

Share your vision with your customers and help them make a powerful statement in their space. Pick any Pantone color or simply provide a color sample, choose your series, and get up to 2 free sample iterations for review.

### CERTIFIED LEADER.

Avonite® Surfaces were the first to achieve certification by Scientific Certification Systems (SCS) – the gold standard for environmental content and practices. Our Studio Collection® Recycled products group contains a minimum of 40% pre-consumer content, while our Foundations® recycled products contain 13% or 16% recycled content. Avonite® also received an A+ for VOC emissions based on French regulation DEVL1101903D.

### RESIST BACTERIA, NATURALLY.

Avonite® non-porous Bio-Lok® surfaces are naturally impervious to the penetration and subsequent proliferation of microorganisms. Hygienic, durable, and easy to clean without added chemicals, our surfaces ensure that unwanted microorganisms have nowhere to hide.
